STEELITE PERFORMANCE REVOLUTION™

nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style. The contrasting yet neutral colour tones; Sandstone and Granite, blend beautifully together and amplify the quality and skill that goes into Chef's creation.

STEELITE PERFORMANCE URBAN™

heightened senses, amplified presentation

Urban appeals to a sharper, city aesthetic where food is still tied to the traditional values of honesty, integrity and authenticity, but requires a slightly more formal, more defined and refined presentation style. Emulating a concrete look, Smoke is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

ROBERT GORDON ADELAIDE™

**ROBERT
GORDON**
AUSTRALIA
POTTERS SINCE 1945

natural and eclectic

The new Adelaide Collection from Robert Gordon consists of two distinct reactive glaze finishes on uniquely embossed porcelain plates, bowls, trays and accessories. Birch, with its crackled glaze effect is fired three times in order to achieve the glossy translucent, creamy white glaze with the natural clay body showing underneath. Juniper is a dynamic light blue hue in a satin finish. Both finishes include dark brown reactive glaze edges and embossments for incredible colour contrast, ultimately framing the food presentation.
